## EDUCATION

---

### GLA University

MCA - Master of Computer Applications -

2022 – 2024

Mathura, Uttar Pradesh

### A.N College

BSC .IT - Bachelor of Science in Information Technology -

2018 – 2021

Patna, Bihar

## EXPERIENCE

---

### Full Stack Developer Intern – AKC Webtech Private Limited

Sep 2025 – Present

- Gaining hands-on experience in developing and maintaining web applications using the Python and Django framework.
- Contributing to front-end development tasks using HTML, CSS, and JavaScript to enhance user interfaces.
- Assisting in database management and operations using PostgreSQL.
- Collaborating with a development team to understand the software development lifecycle and project requirements.

### Full Stack Developer Intern – Victoria Lifts Pvt Ltd

Mar 2025 – Aug 2025

- Developed and maintained web applications using Python, Django, and React.js in a professional environment.
- Implemented responsive user interfaces using HTML, CSS, and JavaScript to improve user experience.
- Worked with PostgreSQL database for data management and performed CRUD operations.
- Participated in code reviews and collaborated with senior developers to implement new features.

## PROJECTS

---

### AI - Chat - Application

- Engineered a full-stack AI-powered chat interface using Python and Django to handle server-side logic and API endpoints.
- Designed and implemented an interactive front-end with HTML, CSS, and JavaScript for a dynamic user experience.
- Utilized PostgreSQL for efficient data storage and retrieval of chat histories and user sessions.
- Integrated a third-party AI/ML API to enable intelligent, real-time conversational responses.

### Hurema – HR & Payroll Simplified

- Designed and developed a modern HR and payroll service provider website single-handedly using HTML, CSS, and React with Vite.
- Built a responsive and high-performance front-end architecture using React components, ensuring smooth navigation and scalability.
- Implemented clean UI/UX design with custom CSS to deliver a professional, business-focused experience for HR and payroll clients.
- Optimized website performance and load time using Vite's fast build system and best front-end development practices.
- Ensured cross-browser compatibility, mobile responsiveness, and SEO-friendly structure for better reach and usability.
